

GOVERNMENT OF NUNAVUT

Leased Properties

Prepared by
Department of Community and Government Services

Fiscal Year 2004/2005

Introduction

The Department of Community and Government Services (CGS) is pleased to present the report on Government of Nunavut Leased Properties for the 2004/05 fiscal year. This is the second year that the report has been produced and incorporates several enhancements in direct response to Members' comments during the review of the 2003/04 report in early 2005.

The 2004/05 report includes additional details on each existing lease. As well, the lease information has been sorted and presented on different bases for easy reference. Specifically, the report now consists of five separate sections as noted below:

- By Community (List A)
- By Expiry Date¹ (List B)
- By Annual Value (List C)
- By Award Type (List D)
- By Vendor Name (List E)

CGS has undertaken these efforts to meet its responsibility in ensuring transparency and accountability in its leasing activities and remains committed to providing accurate and timely disclosure of same.

Objectives

CGS is committed to ensuring fair and ethical practices in meeting its responsibilities. This is accomplished through effective policies and procedures aimed at:

- Obtaining the best value for Nunavummiut overall;
- Creating a fair and open environment for vendors;
- Maintaining current and accurate information; and
- Ensuring effective approaches to meet the GN's requirements.

Disclosure Practices

In meeting its responsibility for ensuring transparency and accountability in its leasing activities, CGS is also bound legally to safeguard competitive information which may prove harmful to private sector interests if disclosed. Information which is normally restricted includes the cost per square foot and the split between base rent and operating

¹ List B also identifies those leases which were inherited by the GN at April 1, 1999. (Please refer to the underlined entries under the "Start Date" column.)

and maintenance charges which together comprise the total lease payment. Such information is typically only available for release upon the other party's consent. To do otherwise may expose the government to legal and financial claims. CGS continues to operate under the advice and direction provided by the Department of Justice in this regard.

Leasing Practices

During the review of the 2003/04 report, Members raised questions about certain leasing practices undertaken by CGS in meeting the GN's requirements. While these were addressed during the proceedings, CGS has also set out such practices here for easy reference.

1. Lease Renewal

CGS reviews its portfolio of leased properties regularly. For those leases that are scheduled to expire within the next two to three years, CGS begins a process of assessing what options may be possible. First, the client department must identify what its ongoing requirements are likely to be and CGS must then determine how best to meet those requirements. In doing so, CGS typically considers the current market rates for similar space (if available) against any renewal options, the level of satisfaction of the client department with the existing space and the specialized nature of the facilities to meet the department's requirements.

Wherever possible, CGS adopts a proactive approach to address leases which are slated to expire in the near to medium term. However, this is also dependent on client departments clearly identifying their requirements well in advance of the lease expiry. While each situation is assessed individually, lease renewals do occur where it yields the best value and/or timely solution overall given the circumstances at the time.

2. Lease Versus Buy

CGS attempts to fulfil GN requirements in the most expeditious and responsible manner so as not to adversely affect government operations or the delivery of goods and services to Nunavummiut. In meeting GN requirements, it considers the various options which may be available at the time. In particular, CGS continues to seek those opportunities in which the GN may be able to secure its own portfolio of properties for program and service delivery but is constrained by multiple priorities placed on the GN's limited resources and ability to raise capital. The GN's approved five-year capital plan sets the priorities annually for capital spending. CGS is also guided by the GN's Leasing Policy which asserts that leasing shall not cost the GN any more than an outright purchase except where tangible benefits can be clearly demonstrated. Working within this environment, CGS aims to provide the best solutions with the resources available to meet Nunavummiut's needs.

3. Types of Lease

The GN administers three types of leases in order to secure and maintain the space needed to run government operations and to provide programs and services for Nunavummiut. Each type of lease imposes certain obligations on the GN, as set out below:

- **Gross Lease**

The GN pays a single fixed rate to the Landlord that includes all of the additional costs associated with the operations and maintenance of a facility. The GN does not incur any other costs outside of the single monthly rate paid to the Landlord.

- **Semi-Gross Lease (or Modified Gross Lease)**

The GN pays a single fixed rate to the Landlord but may also pay for one or more of the additional costs associated with the operations and maintenance of a facility.

- **Net Lease**

The GN pays a fixed base rent to the Landlord plus all of the additional costs associated with the operations and maintenance of a facility. The Landlord will typically pay all the costs associated with the operation and maintenance of a facility and charge these costs back to the GN at the end of the lease year with an administrative fee.

The current trend is toward gross leases which provide the certainty of a fixed rate and lessen the GN's exposure to rising operating and maintenance costs and administrative fees.

Conclusion

CGS has modified the content and format of the report on Government of Nunavut Leased Properties with the objective to better address concerns raised by Members and to enhance transparency and accountability overall. In doing so, the Department is also pleased to highlight its leasing activities which support the GN's obligations in providing critically needed programs and services across the territory for all Nunavummiut.

Note: A summary of GN leasing statistics is presented on the following page

Abbreviation: MIX is used to indicate that a number of GN departments occupy the leased space. Where only one GN department occupies the leased space, this is noted by a department-specific abbreviation.

Overhold Leases: These leases have expired but the GN continues to occupy the space as a month to month basis for operational reasons.

Ref Notes:

- B1 This lease is currently in "overhold" pending the outcome of ongoing discussions between the new building owner and the client department.
- B2 This lease is currently in "overhold" while the departmental requirements are assessed following the development of the local health centres.

B3 This lease is currently in "overhold" while the department's ongoing requirements are assessed.

B4 This lease is currently in "overhold" but will be terminated once the new health centre is available for full occupancy.

B5 This lease is being terminated as the space is no longer required by the department.

Inherited Leases:

There are 19 leases which began prior to the start-up of the GN on April 1, 1999. These have been underlined in the Start Date column.

Abbreviation: MIX is used to indicate that a number of GN departments occupy the leased space. Where only one GN department occupies the leased space, this is noted by a department-specific abbreviation.

Note:

(a) The Annual Value represents the contractual amount that the GN is obligated to pay directly to the Vendor or Landlord. At times, this may

include a portion related to operating and maintenance costs as agreed between the parties when the lease was first negotiated. As well, the GN may pay certain utilities directly to the suppliers for certain leased properties and these amounts would not be reflected in the above amounts.

Abbreviation: MIX is used to indicate that a number of GN departments occupy the leased space. Where only one GN department occupies the leased space, this is noted by a department-specific abbreviation.

Note:

- (a) This lease covers the specialized medical equipment which are necessary to run the Arviat Health Centre. As per the agreement, the equipment become GN property effective March 2006.
