# verifying the origin

of nunavut arts + crafts

The Authentic Nunavut brand guarantees the origin of the Nunavut products you sell.

Developed in partnership with the artists of Nunavut, the Authentic Nunavut logo symbolizes the Arctic land, which is the central inspiration for their work. The image captures the elemental spirit expressed in Nunavut art.

- The sun is a Northern sun, low on the horizon.
   Its vivid yellow hues and the presence of sun dogs suggest a rising sun's exceptional radiance in frosty air.
- The blue waters are surrounded by white space that looks like spring or fall ice.
- The earthy green landscape sums up Nunavut geography — open spaces, distant hills, rolling terrain, and coastline on salt or fresh water.

This logo is a registered trademark owned by the Government of Nunavut on behalf of Nunavut artists.
