Alberta	51,786	52,526	-740	-1.4
British Columbia	43,490	43,592	-102	-0.2
Yukon	..	..	...	...
Northwest Territories	581	625	-44	-7.0

**Notes:**

- <sup>1</sup>Canada Includes unknown province or territory of residence of mother.
- ... Data not available.

**Note to Readers:**

- Readers should be aware that the percentage figure changes for Nunavut are a reflection of relatively small numbers. As well, taken over longer periods of time, the resulting changes would likely be more reflective of the actual changes.
- Due to improvements in methodology and timeliness, the duration of data collection has been shortened compared to previous years. As a result, there may have been fewer births and stillbirths captured by the time of the release. The 2017 and 2018 data were revised on September 29, 2020 and the 2019 data are considered preliminary.
- Data for births in Yukon are not available. To avoid confusion, we have also suppressed those births to residents of Yukon that occurred in other provinces and territories. Data for Yukon are, however, included in the Canadian totals and averages for the period 2000-2019.
