Project Description:
Including length of road to be built or rehabilitated, type of road/trail proposed (e.g. all-terrain vehicle trail or a four-wheel drive truck road, seasonal or year-round use)

Map
A map of the proposed road/trail indicating the overall route and length and the section to be constructed or maintained in the current year. Please clearly differentiate on the map any previous roads/trails built, the project proposed in the current year and the projected route of any roads planned for the future. Please use a Geographical Information System (GIS) application that provides a clear electronic image and indicates topography, water crossings and other important features. This can be completed using a site: such as https://atlas.gc.ca/toporama/en/index.html, Google Maps (with Terrain) or similar. Please contact EDT if you require assistance or clarification.
