\* Communities with an odd number base allocation will alternate between one additional male and female annually as authorized by the appropriate RWO.

\*\*As per Nunavut's Polar Bear Co-Management Plan, all polar bear credits will be reset to zero (0) when new TAH levels are established.

^ Annual Recommended Quota

‡ Natural death, survival (starvation) kills, and euthanized bears are not applied to the ARQ. Survival (starvation) kills are described in section 97 of the Wildlife Act as an emergency kill to prevent a person's starvation.

†Defense of life and property kills (DLPK); COYS/YRLGS count as 0.5 male bear

1 Pending DNA test results of unconfirmed male(s) - until gender confirmation these males count as females

2 ARQ reduction in 2022-2023 due to over harvest of females. No credits available

3 ARQ reduction in 2022-2023 due to overharvest of males. No credits available

4 Credits used to increase 2021-2022 ARQ

5 ARQ reduction in 2021-2022 due to overharvest. No credits available.

6 Foxe Basin floating tags will be allocated by the appropriate RWO

7 Recommended quota subject to change pending RWO allocation

8 Resolute Bay agreed to transfer 5 female credits to Arctic Bay for the 2021/2022 harvest year

9 On July 28, 2022, the Minister of Environment accepted the NWMB decision to implement a new TAH. The Government of Nunavut is in the process of putting this into regulation.
