

Kugluktuk 2009

Kugluktuk, formerly known as Coppermine, is situated along the banks of the Coppermine River and on the shores of the Coronation Gulf. Located north, and slightly west of Yellowknife, Kugluktuk is the most westerly community in Nunavut. In summer, canoeists and rafters take the popular route up the Coppermine River to the scenic "Bloody Falls Territorial Historic Park". Other stimulating outdoor activities include hiking, fishing, hunting, kayaking and photography. Because the tundra is close to the tree line, a variety of wildlife can be viewed in the area, including grizzly bears, wolverines and moose, as well as tundra wildlife, such as muskoxen, caribou, foxes and wolves. The people of Kugluktuk rely heavily on their traditional economy of hunting and fishing to feed and clothe their families for cultural and nutritional well-being. Community residents are also optimistic that the growth sectors of tourism, government and especially mining, will increase Kugluktuk's economic development, along-side the established traditional pursuits.

Getting There: First Air operates daily flights to Kugluktuk from Yellowknife. Canadian North operates six days a week. Please check with the airlines for schedule changes.
