

## **Public Service Announcement**

## Effective Immediately: Closure of Baffin Island Caribou harvest

Start Date: May 17, 2022 End Date: June 30, 2022 Qikiqtaaluk Region

40 sec

The Baffin Island Caribou 2021-2022 harvest is closed effective immediately. No further harvesting is allowed.

The Total Allowable Harvest (TAH) of 250 caribou established by the Nunavut Wildlife Management Board for 2021-2022 has been reached. Any remaining tags are immediately void and are to be returned to the local Wildlife Office or Hunters and Trappers Organization.

Any additional harvesting of the Baffin Island Caribou during the 2021-2022 season is in violation of the *Nunavut Wildlife Act*. Violations will be investigated and may lead to enforcement action.

The TAH was established to support the recovery of the Baffin Island Caribou population and is a critical piece in the co-management efforts to allow the herd to recover and provide harvesting opportunities for future generations.
