

Government of Nunavut ransomware update

November 15, 2019, 11 a.m. update

The Government of Nunavut (GN) can confirm that payments for Financial Assistance to Nunavut Students (FANS), Adult Learning Training Supports and Foster Parent payments will be issued to clients today, and that future payments for those programs will be issued as scheduled.

Income Assistance payments in Iqaluit are now being delivered as scheduled, following the regular process.

Nunavummiut on Income Assistance in communities outside Iqaluit will continue to receive vouchers.

Income Assistance clients can contact their income assistance worker in their community, if they have questions or concerns.

We would like to remind Nunavummiut that government services are open and functional. The GN can be reached by phone, fax and voicemail. All information on government programs and services is available at www.gov.nu.ca.
