

NUNAVUT PARKS SERVICE FIREARMS PERMITTING POLICY

POLICY STATEMENT

The Department of Sustainable Development is committed to ensuring that all visitors, residents, and outfitters using Nunavut's Territorial Parks do so in a manner that protects personal safety, the safety of clients, and protects natural resources, while minimizing the impacts to wildlife populations from defense kills.

Changes to the regulations of the Territorial *Parks Act* authorize the Superintendent of Parks to issue a firearms-related Park Use Permit ("PUP") to outfitting companies, and individuals. A firearms-related PUP may only authorize the use of firearms for the emergency protection of park users from dangerous wildlife, as provided by ss. 3.3 of the *Territorial Parks Regulations* (see **Appendix A**). Except as may be authorized in the *Nunavut Land Claims Agreement*, hunting or the use of firearms other than for emergency protection are not authorized by the *Territorial Parks Act*, its regulations, or this policy.

Inuit using a park for the sole purpose of harvesting and/or harvesting-related activities as per the *Nunavut Land Claims Agreement* are exempt from the application of this Policy

If any guide not previously approved by the Superintendent under a general company permit is found to be carrying a firearm within a Territorial Park as an employee of that company; that company's firearms-related PUP shall be immediately revoked, and the GN may also file charges or exercise other remedies pursuant to the *Territorial Parks Act* where warranted.
